

NANOTECHNOLOGY RELATED COURSES OFFERED SPRING, 2003*

BIOCHEMISTRY

No courses this quarter

BIOENGINEERING

BioE 592, 492 Surface Analysis Ratner (3)

(w/CHEM E 558, 458)

Wednesday & Friday, 4:30-5:50

BIOEN 455 BioMEMS Folch (3)

BIOEN 490 Biomaterials Hoffman (3)

BIOEN 555 Introduction To Biomechanics Pollack (3)

BIOEN 583 Frontiers in Nanotechnology Vogel (3)

BIOEN 599N Nanotechnology Seminar Vogel (1)

(w/CHEM 560A)

CHEMICAL ENGINEERING

CHEM E 554 Nanoscale Science Overney (3)

CHEMISTRY

CHEM 560A Nanotechnology Seminar Xia (1)

(w/BIOEN 599N)

ELECTRICAL ENGINEERING

EE 527 Microfabrication Techniques Bohringer (3)

EE 528 Physics and Modeling Dunham (3)

(w/MSE 528)

GENOMIC SCIENCES

No courses this quarter

MATERIALS SCIENCE AND ENGINEERING

MSE 599K Spec Topics Materials Science Jen (3)

Organic Electronic and Photonic Materials/Polymers

MSE 599L Spec Topics Materials Science Krishnan (3)

Magnetism, Magnetic Materials and Related Applications

MEDICINAL CHEMISTRY

No courses this quarter

PHYSICS

PHYS 586 Seminar Condensed Matter Cobden (Credit/No Credit 1-24)

Tues 330-520 PAA A110

Fri 330-520 PAB B109 Call 206-543-2686 for details

PHYSIOLOGY AND BIOPHYSICS

No courses this quarter

For more specifics, check the UW Spring 2003 Course Catalog.

*This list will be updated as more Spring 2003 courses are added.
